

Facilities Services Department Mission

The mission of the Facilities Services Department at the University of Colorado at Colorado Springs is to provide exceptional customer service to students, faculty, and staff by constructing and maintaining the natural and physical environment of the campus; and by providing mail and shipping support.

Some of the organizational elements that combine to achieve the department's mission include:

Sustainability	Planning, teaching, and complimenting all departmental activities to ensure that the university's growth is sustainable
Custodial	Keeping buildings clean and safe for occupants
Grounds	Maintaining the sidewalks, roads, and improved grounds in support of a pedestrian scaled environment
Electric/HVAC	Monitoring and maintaining efficient indoor and outdoor lighting for the safety and environment of the customer as well as the indoor air quality through the efficient management of building air conditioning and heating systems
Maintenance	Providing support for events, carpentry repair, campus signage, street striping, and key and lock services
Plumbing	Monitoring and maintaining superior water quality through the effective management of water supply, distribution, and waste systems as well as the storm water collection systems
Mail and Shipping	Managing the packaging and correspondence to and from campus and several commercial carriers
Construction	Scheduling inspections and working closely with contractors to provide the most efficient facilities for the least possible cost

Department's Motto: ***Quality First, Customer Satisfaction Always!***
