

CHEM 101

More equations to balance

1. water & magnesium oxide \rightarrow magnesium hydroxide
2. sodium & water \rightarrow sodium hydroxide and hydrogen
3. aluminum hydroxide & phosphoric acid (H_3PO_4) \rightarrow aluminum phosphate & water
4. silver oxide & hydrochloric acid (HCl) \rightarrow silver chloride & water
5. methane (CH_4) & oxygen \rightarrow water & carbon dioxide
6. cupric nitrate & sodium sulfide \rightarrow cupric sulfide & sodium nitrate
7. potassium chlorate (KClO_3) \rightarrow potassium chloride & oxygen
8. nitrogen & hydrogen \rightarrow ammonia
9. lead (II) nitrate \rightarrow lead (II)oxide & nitrogen monoxide & oxygen
