## CALCULUS III (Fall, 2009)

**Math 235, T TR F 1:40-2:55**

**Instructor:** Yu Zhang

**Grader:** Les Tekamp.

**Office hours:** T Th 12:30-1:30 , Office : EAS 286, Tel: x3336

**Text:** Essential Calculus by Steward

**Exams:** there will be three prelims and a final. Most of the exam questions will be very much like the suggested exercises. The best way to prepare for the exams is to work as many problems as possible. You will find plenty of unassigned problems in the book to practice on. we do not like make-up exams given on different day unless you really have a legitimate reason. In that case you expected to talk me one week before the exam. Do not simply fail to show up and then try to explain why, you risk an F if you do this.

**Grading:** At end of the term the letter grades will be based on the following:

Three prelims .....60%

Final exam .....30%

Homework and computer lab...10%

**Homework:** Homework will be assigned virtually T, Th and F and will be due one week from the date of assignment.

Assignments submitted late will not be accepted.

**Important Days:**

**Oct. 30** Absolutely the last day to drop the course.

**Dec. 15** Final Exam.
