Bad things happen to great wonderful people. Unfortunately that's just a fact of life. That's the bad news. The good news is that we are rarely defined by the bad things that come our way. We are defined by the decisions we make about how to deal with the adversity that comes our way in Life and Business.

Whether it's a bad economy, a cheap competitor or an unreasonable customer in business or a personal struggle in life - everyone faces challenges. And regardless of the adversity, there are always examples of companies and individuals who are thriving in the face of similar challenges.

This dynamic and powerful inspirational keynote is based on Weldon Long's award winning memoir, The Upside of Fear - How one man broke the cycle of prison, poverty and addiction and his New York Times Best-Seller, The Power of Consistency.

Attendees will learn how to overcome any business or personal challenge and thrive in the face of adversity. Not only will the audience be inspired to transcend problems, they will learn the powerful formula Mr. Long developed and used to go from 'walking the yard' in a high security prison to walking the beaches of Maui.

The lessons learned can help any company or individual create financial success and prosperity regardless of the external threat or challenge.

Through the powerful Upside of FEAR program attendees will learn how to:
1. Get FOCUSED on what they want, what they want to become and what they want to contribute in Life and Business. They will also learn to identify counter-productive limiting beliefs that may be holding them back from realizing their true potential.
2. Get EMOTIONALLY COMMITTED to the business and personal outcomes they desire.
3. Take consistent ACTION towards the things in Life and Business they want and move away from the things they don’t want.
4. Take RESPONSIBILITY for their business and personal decisions that will ultimately determine their results in Life and Business.

We all understand that our results are a reflection of our actions, but many of us fail to understand that our actions will not change until we change our emotions, and the emotions cannot change until the thoughts are changed. Until we address the key issue of our basic thoughts and beliefs we will continue to drown in a sea of poor sales and business performance.

The solution is Prosperity Mindset Training with Weldon Long. Mr. Long is a successful entrepreneur, powerful speaker, award-winning and best-selling author. He has perfected the craft of creating Prosperity Mindsets in a thousand of sales and business professionals across the country.

In 2003, Mr. Long walked out of prison to a homeless shelter after 25 years of poverty, homelessness and addiction. Within 60 months he had built an Inc 5000 company with over $20,000,000 in revenue.

How was this possible? How does a 3-time loser with a 9th grade education go from walking the yard in a high-security prison to walking the beaches of Maui virtually overnight? The answer lies within The Power of Consistency.

Experience what thousands of other attendees have experienced. Discover how you can achieve a life of wealth, happiness and prosperity through this amazing, transforming program.
