EPUS Committee Report  
September 2017

- There are 18 policies under review this year that have an EPUS committee member on the review committee (3 new policies; 12 existing policy reviews; 3 policy reviews that carried over from last year).

- EPUS has endorsed new UCCS Policy 200-025 Intellectual Property that is Educational Material and is recommending endorsement of this new policy by the Faculty Representative Assembly. A copy of the policy is attached.

**Background:** This new policy is required by the System APS 1014 Intellectual Property that is Educational Materials (http://www.cu.edu/ope/aps/1014). APS 1014 states that "the University of Colorado assigns any ownership it has in Educational Materials to the person or people who create such Materials" with 4 exceptions:

1. those cases in which the production of such materials is a part of sponsored programs;
2. those cases in which the materials are created under the specifically assigned duties of employees other than faculty;
3. those cases in which substantial University resources were used in creating educational materials; and
4. those cases which are specifically commissioned by University contract, or done as part of an explicitly designated assignment made in writing, other than normal faculty scholarly pursuits.

In those 4 cases, the University retains the ownership rights to the materials.

The UCCS policy establishes the Kramer Family Library as the repository for materials that fall under one of the 4 exceptions.

During the EPUS discussion of this policy, concerns were raised regarding exception #3 since the policy definition of ‘substantial University resources’ includes supplemental pay and offloading from regular duties. EPUS committee members were concerned that there were no parameters, in particular no minimum amount, associated with the designation of supplemental pay as a substantial University resource. Since this is an issue with the system APS and not the UCCS policy, EPUS forwarded the concern to a campus representative to the System EPUS committee.

Under both the System APS and the UCCS campus policy, faculty do have the ability to negotiate to retain the intellectual property rights to materials they develop, even if supplemental pay or an offload from regular duties is involved. Such arrangements should be written and agreed upon prior to the development of the materials.
