What is the Math Bridge Program?
The Math Bridge program is an online Pre Calculus math course designed to allow students to navigate learning paths based on their level of readiness, creating a customized Pre Calculus course that meets each student’s particular learning needs. The course includes an extensive algebra and geometry review and will prepare students to be successful in a college level Calculus I course.

When is the Math Bridge Program?
The Math Bridge will occur over the course of the Fall, 2011 and Spring, 2012 semesters. Students will be expected to spend approximately 2 hours per week on Math Bridge coursework.

What will I get from the Math Bridge Program?
Math Bridge students will be able to address any gaps in their own math understanding to gain a solid foundation for success in Calculus I. Coursework will cover Algebra II, Geometry, Trigonometry, and Pre Calculus concepts. The course is designed to allow students to enter a college level Calculus I course without any need for remediation.

What is the format of the Math Bridge course?
Math Bridge students will do the majority of the coursework online using Blackboard, ALEKS, and other internet resources. The instructor will offer online office hours, real time web based video review sessions, and ongoing discussion forums to support student understanding and success.

Who can take the Math Bridge Pre Calculus Course?
Any PIPES enrolled student who has taken Algebra II can enroll.

What is the cost?
The cost of the Math Bridge Pre Calculus course is $100. PIPES scholarships are available.
