Are you a SEEKER?

Are you *seeking* to explore your inner engineer?

Then we have a program for you!

**Bridge2Engineering** ($350)- An overview of various engineering fields, including electrical, mechanical and computer engineering. Students will gain hands-on experience under the guidance of engineering professionals and graduate students. This is a full-day camp that runs for 5 days for students entering grades 9-12.

**Engineering That Matters** ($225)- An exploration of engineering concepts used by groups like *Engineers Without Borders* to help improve the lives of people in communities in developing countries. This is a half-day camp that runs for 5 days for students entering grades 6-8.
