General Academic Information

Academic Policies

It is the responsibility of each student to know and follow all Academic policies established by the University and the College of Letters, Arts & Sciences (LAS) that are set forth in the Catalog (catalog.uccs.edu).

Course Prerequisites

Students are responsible for knowing and completing all course prerequisites. Course prerequisites are strictly enforced for all classes at UCCS.

Restrictions and Limitations

Students must be admitted into the degree major in the College of Engineering and Applied Science at least 30 credit hours prior to graduation. Only three hours of Independent Study may count toward the degree. Work Experience/Military Science/ROTC credit will not apply toward fulfillment of the requirements for a degree from the College of Engineering.

Probation/Suspension

Students whose semester or cumulative GPA falls below 2.0 may be placed on probation for the next semester in which they are enrolled in the College of Engineering and Applied Science and will be notified by email. If, after that semester, the next semester or cumulative GPA is still below 2.0, the student may be suspended from the college. PLEASE NOTE: *While on probation, registration for the subsequent semester will be blocked until final grades are posted for the current semester. This is to verify that the minimum semester GPA for each student has been fulfilled.*

UCCS Bachelor of Science, Engineering Education Major Degree Requirements

- A minimum of 128 hours must be completed with a cumulative CU grade point average of 2.0.
- The last 30 hours of the degree must be completed while registered in the College of Engineering and Applied Science at UCCS.
- Courses numbered below 1000 do not count towards degree completion.

- This guide is provided for student use only. It does not represent an official documentation of a student's progress towards completion of their degree program. The Engineering Education program requires a minimum 2.0 GPA in all Engineering course work taken in order to graduate. Students must also complete an Exit Interview during their final semester to graduate.

Compass Curriculum

Compass Curriculum is the campus-wide general education program at UCCS. The Compass Curriculum has multiple components many of which will coincide with the degree requirements listed in this guide.
