**Note 1:** The data were taken from an interim database prepared in August, 2000 by county assessors for use in statewide assessment equalization study. Crowley, Kiowa, and Jackson counties (and the other local governments in those counties) are not in the database. Jefferson county (and its local governments) are omitted because their data were reported as actual values rather than as assessed values. Other specific local governments have been omitted because they do not levy a property tax or because their specific data were not in the database in useable form.

**Note 2:** 1,312 local governments are listed out of 2,169 total per the Division of Property Tax, Department of Local Affairs, 1999 Annual Report.

**Note 3:** The assessed values of state assessed properties are not included because the data for these companies was not useable as in the database. Generally, these companies are airlines, utilities, railroads, pipeline, and telecommunication firms. In some instances, e.g., a large power generating
