Go to nslds.ed.gov.

Click on the Financial Aid Review button in the middle of the page. Log in using your FSA ID and password.

You are able to see all federal loans and grants that you have received.

You can click on the left hand numbers of the loan or grant to get detailed information such as loan amounts and status, as well as lender contact information.

You can also view information about your Pell grants, including your total lifetime eligibility used (LEU) at the bottom of the page.

While grant history is updated daily, new loans are reported to NSLDS within 30 days of funds being received by the school. If you have been making payments on a loan, the outstanding principal balance listed by NSLDS may not be current. Please contact your loan servicer for more up-to-date information.

You can use this information not only to keep track of your grants and loans, as well as to contact your loan lender(s) directly with any questions regarding your loan status or repayment information.
