

Financial Aid Summary

AID YEAR 2015-2016

University of Colorado
Colorado Springs

Institutional Research

WWW.UCCS.EDU/IR

Introduction

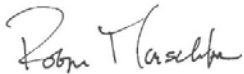

Welcome to our sixth annual report on the distribution of financial aid among UCCS students. The report is intended to satisfy the need for greater transparency and to inform campus decision-makers as well as students and their families about types and amounts of financial aid distributions.

Included in the analysis are financial aid distributions *throughout aid year 2015-2016 among students who were enrolled during the Fall 2015 semester*. Please note that students enrolled only during the Spring 2016 semester may have received financial aid but are not included in this report.

The information in this report is drawn from a dataset used to report student-level financial aid to the Colorado Department of Higher Education via the Student Unit Record Data System (SURDS) and to the National Center for Education Statistics via the Integrated Postsecondary Education Data Systems (IPEDS). It is a cross-section of data that does not always match the exact financial transactions that occur throughout the aid year.

For more information about the intricacies of financial aid, contact the Financial Aid Office for direct support. To request further analyses or ask questions about *this* report, please contact the Institutional Research Office.

Thank you,

Robyn Marschke, Ph.D.

Director of Institutional Research

University of Colorado Colorado Springs

Undergraduate Financial Aid

First, a brief primer on Budgets, Need, and Estimated Family Contribution; these are three vital calculations that determine a student's financial aid package. The primer is followed by brief summaries of aid sources and aid types. The Office of Institutional Research is responsible for the methods used in this report. *For the best explanation of financial aid, always refer to the Office of Financial Aid at www.uccs.edu/finaid.*

While considering the contents of this report, be aware that the College Opportunity Fund (COF) for residents of Colorado is considered a tuition reduction rather than financial aid. Likewise, many third parties and military benefit programs fund students' educational costs as tuition assistance but are not managed as financial aid. Education tax credits and deductions also help students cover the cost of their education, but are not considered to be financial aid.

Student Budget, Estimated Family Contribution, & Need

\$24,417
Avg Budget

The Financial Aid Office determines a **student budget** based upon costs of attendance and student information provided in the application. Each student *who applies for aid* has a budget that includes room and board, textbooks, transportation, and other living expenses in addition to tuition and fees for Fall and Spring terms. At UCCS, the budget assigned to each financial aid applicant is similar to the cost of attendance for one year. In fall 2015, 7681 undergraduates had a student budget and the average amount was \$24,417.

\$12,195
Avg EFC

The US Department of Education calculates the **expected family contribution** (EFC) from information students report in the Free Application for Federal Student Aid (FAFSA). EFC incorporates several factors for dependency, family size, and individual and household income. It is used to determine aid eligibility and is not the actual amount of tuition and fees provided by a student's family. The average EFC was \$12,195.

\$16,087
Avg Need

Need is the student budget minus the expected family contribution. Approximately 22% of students who applied for aid were determined to have no need. The average need was \$16,087.

\$10,524
Avg Aid

Among 9970 undergraduate students in Fall 2015, **77% applied for aid** and **66% received financial aid**. The average amount of aid was \$10,524 (this includes applicants not awarded aid; the average award among *recipients* was \$12,262). On average, a student's aid covered 43% of the average student budget while the average EFC should have covered 50%.

Sources of Aid

There are four sources of financial aid: federal, state, institutional, and private. The largest source distributed at UCCS is federal aid (73%) followed by institutional aid (10%), private (9%), and state aid (8%). **Federal Aid** includes Federal Direct Loans, Federal Perkins Loans, Federal Parent’s Loan for Undergraduate Students (PLUS), Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG), and Federal Work Study. **Institutional Aid** includes need-based and merit-based scholarships. Athletic scholarships are an example of merit-based institutional aid. **Private Aid** consists of scholarships and loans from organizations outside the government. **State Aid** is provided via the state government and includes the Colorado State Grant, GearUp Scholarships, and Colorado Work Study.

Types of Aid

Aid comes in the form of scholarships, grants, work study, and loans. Scholarships and grants do not require repayment and are the most desirable type of aid. Perkins and Subsidized Direct Loans are more desirable than other loans because the government subsidizes the interest while the student is enrolled. The government does not cover the interest for Unsubsidized Direct Loans, but they do regulate the interest rate, which is usually better than private loan interest rates. Federal Need-Based Work Study is also subsidized by the government with funds provided to institutions to cover wages earned by students. The majority of aid was in the form of loans (62%), followed by grants (23%), scholarships (14%), and work study (2%).

	Total	Percent of Total Aid	Average Award among Recipients	Recipients
TOTAL AID	80,834,176	100.0%	\$12,262	6,592
LOAN	49,924,661	61.8%	\$10,431	4,786
GRANT	18,276,245	22.6%	\$5,685	3,215
SCHOLARSHIP	10,987,257	13.6%	\$3,660	3,002
WORK STUDY	1,646,013	2.0%	\$3,767	437

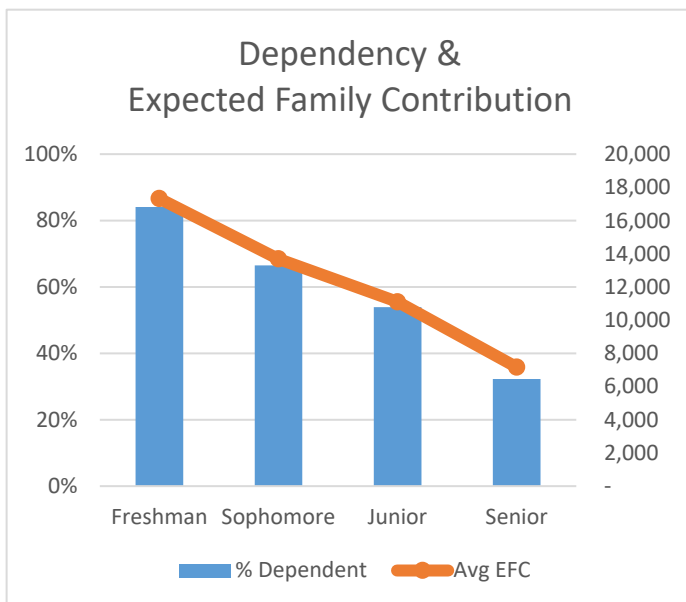

Student Characteristics

Class Level and Dependency

Like previous years, more aid was distributed to freshmen and seniors than sophomores and juniors. Freshmen received the most scholarship aid while seniors received the most grant and work study aid. Sophomores

received the least amount of aid. For a better comparison, refer to the average aid distributed per recipient by class level. First-year students have the highest average loan amount, freshmen and juniors have greater average grants and work study awards, and seniors have the highest average scholarship and workstudy awards.

The percentage of students deemed dependent on their parents decreases as student progress through class levels. While 84% of first year students (who applied for aid) are dependent, only 32% of seniors are dependent.

As students become less dependent on their parents, the contribution expected from their parents also declines. First year students have an average EFC of \$17,323 in comparison to seniors at \$7,165.

College and Residency

The distribution of aid among college programs is similar to the distribution of students among college programs, indicating that aid is not disproportionately concentrated in a particular college although tuition rates differ by college.

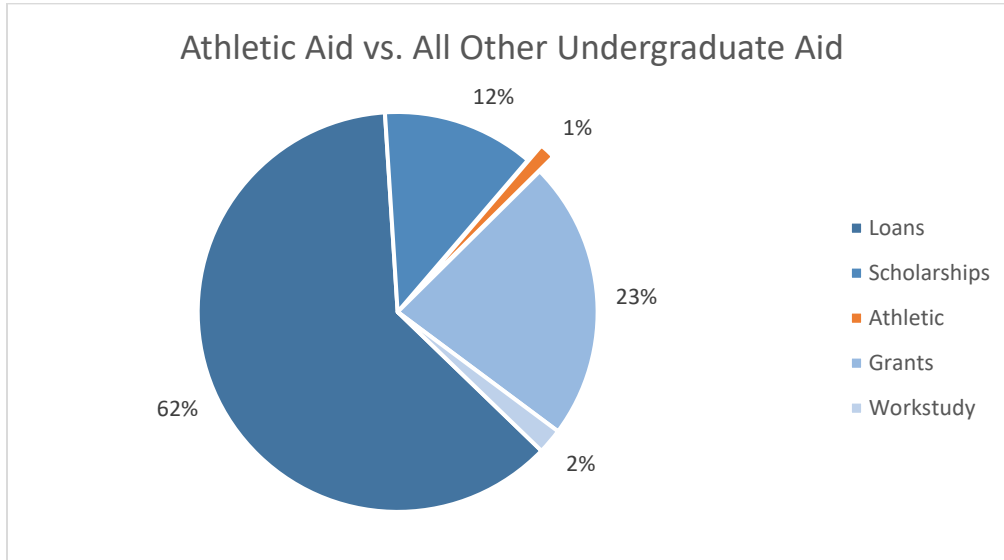

The distribution by residency indicates that the bulk of work study (90%) and grant aid (93%) as well as scholarship aid (84%) and loan aid (81%) was distributed to residents. During the fall semester, 87% of the undergraduate students were classified as residents.

Undergraduate Athletic Scholarships

A total of 185 undergraduates received institutional athletic aid¹: \$1,045,708 dollars were disbursed for an average award of \$5,652. The athletic aid comprised 13% of institutional aid but only 1.3% of total undergraduate aid.

Student Persistence & Transfers Out

In bar chart below, the intention is to show the distribution of aid to students who have or have not persisted at UCCS one year later. The financial aid distribution is concentrated among students who return to UCCS. Approximately 18% of loan aid, 16% of grant aid, 11% of scholarship aid, and 6% of work study aid was disbursed to students who either transferred to another institution or dropped out of higher education by the beginning of the fall 2016 semester. Overall, 84% of aid was distributed to students who either returned or graduated.

¹ Athletic aid is drawn from a live query rather than the SURDS dataset, using "item type codes" in Campus Solutions. We work with the Financial Aid Office to make sure we have all athletic related item types and then consider the sum to be a subset of the total institutional aid recorded within the SURDS dataset.

Aided students who transferred to another institution by fall 2016 were mostly resident freshmen who transferred to institutions in Colorado. The 291 students who received aid at UCCS and then transferred to another institution by Fall 2016 had received \$2,859,480 in aid at UCCS or approximately 4% of the aid awarded.

Top 10 Institutions Aided Students Transferred to:	Number of Transfers	Total Aid	Avg Aid

ARAPAHOE COMMUNITY COLLEGE	5	37,752	7,550

Trends in Undergraduate Aid

Federal Aid is Vital

Federal aid continues to be the largest and most vital source of aid but it increased by a lesser amount (1.4 million) than institutional, state, and private aid combined (2.1 million). The increase in the latter is primarily due to state and private aid.

State Aid Rebounds

The amount of undergraduate state aid increased by \$1.2 million or 23% this year after following a \$1.8 million increase last year. The state proportion of aid has increased from 6% in 2012 to 8% in 2016.

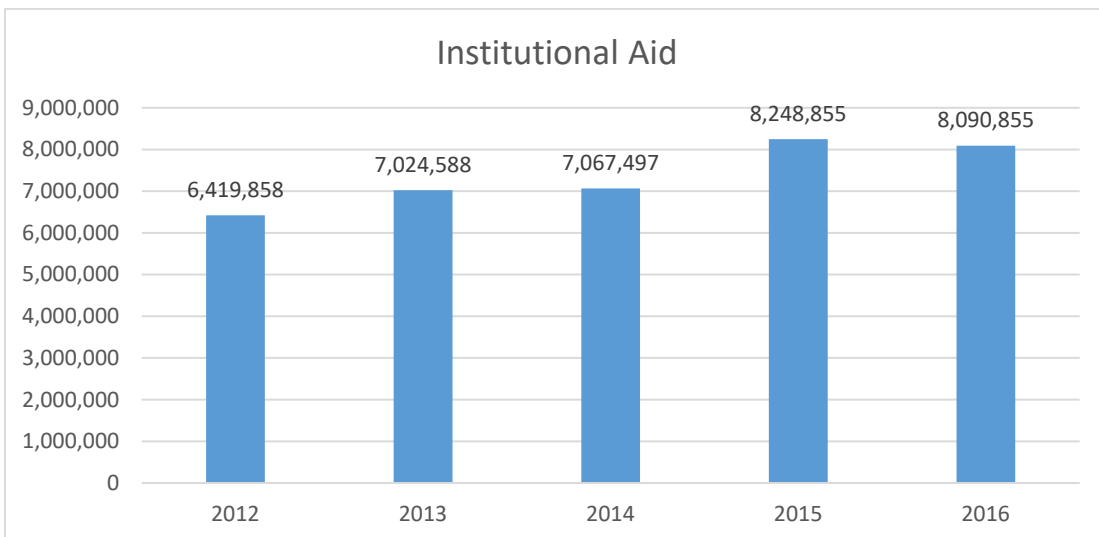

Private Aid Steps Up Again

Private aid increased by over \$1 million and it continues to be the third largest source of aid. The distribution grew from \$4.1 million in 2012 to \$7.1 million in 2016. The private proportion of the total aid also increased from 7% in 2012 to 9% in 2016.

Institutional Aid Decreases

This year is the first year since 2012 in which undergraduate institutional aid decreased. This is in part an artifact of analyzing the fall semester students because aid disbursed to spring students is excluded from this analysis if the students were not enrolled in the fall. Regardless, institutional aid decreased by 2% or \$158,000.

One-Third of Undergraduates Receive Pell Grants

Federal Pell Grants continue to be an important part of undergraduate financial aid packages. Approximately 32% of all undergraduates received a Pell Grant with a total disbursement of \$12,565,760.

The average award increased from \$3942 last year to \$4002 this year. About 14% of undergraduates received a Pell Grant of \$5000 or more.

The maximum Federal Pell Grant changes every year. Please see the Office of Financial Aid for recent and upcoming eligibility requirements at www.uccs.edu/finaid/types/grants.html.

Loan Aid Reaches \$50 Million

Loan aid reached approximately \$50 million this year. It far exceeds the other types of aid, but the annual increase of \$1.2 million is the smallest it has been over the past five years. Grant aid increased by \$1.6 million and scholarship aid increased by \$363,804. Work study aid has remained near \$1 million dollars since 2011 and increased to \$1.6 million this year.

Among loans, recall that there are federal, private, and parent loans. The chart below shows the disbursed amounts per type of loan over each of the past five years. While the federal Perkins, subsidized, and unsubsidized loan distributions each decreased slightly, the private and Plus loans have increased, particularly PLUS loans provided to parents rather than students.

Students Persist Despite Loan Amounts

While loan aid reached \$50 million dollars this year, just over half of the undergraduate students *did not have a loan at all*. About 28% had loans under \$10,000 with the remaining 20% of students having loans above \$10,000. About 6% of undergraduates took loans for over \$20,000 for the year. A large loan amount may seem like an at-risk factor that would dampen student success; however, 84% of the 2,064 students with loans of \$10,000 or more either graduated or enrolled by the fall 2016 semester. This is a higher success rate than that of students with loans less than \$10,000 (77% success rate) and students without loans (73% success rate).

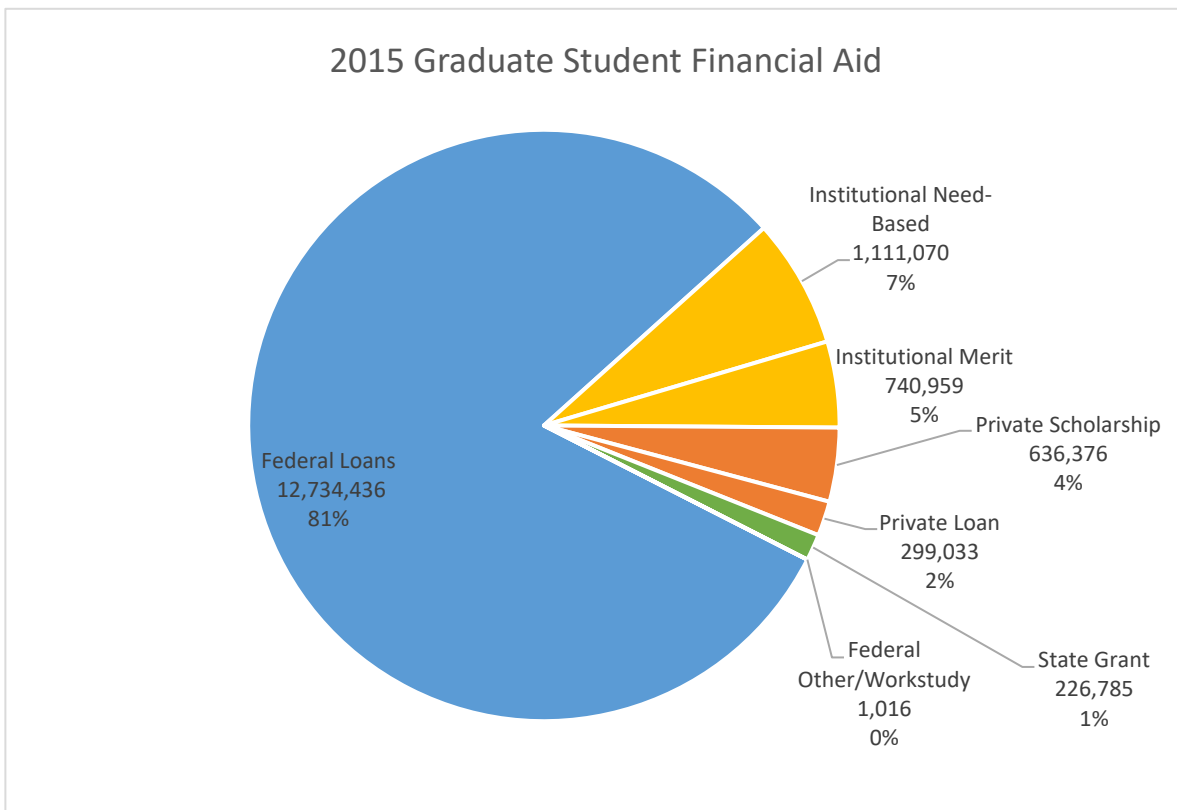

Graduate Student Financial Aid

Financial aid for graduate students is not as robust as that for undergraduate students. Among 2,018 graduate-level students, 52% applied for aid and 45% received aid. The average disbursement per recipient was \$14,942 for non-degree graduates and \$17,260 for graduate students. Approximately 17% of the population is in the “non-degree” career that includes post-baccalaureate and certificate-seeking students; the non-degree graduate students received 4% of the aid to graduate students and most of their aid (90%) was in the form of Direct Unsubsidized Loans.

Sources and Types of Aid

The bulk of aid disbursed to graduate students is in the form of federal loans (81%) followed by institutional aid (12%), and private aid (6%). The state provided 1% of the aid disbursed to graduate students. The state aid consisted of the Colorado Graduate Grant available to Colorado residents who are STEM majors with an Expected Family Contribution of \$4600 or less. The maximum Colorado Grant award is \$4000 per student per year.

Average Awards by Type

Among graduate students, the average loan amount was \$17,000 for graduate and \$16,000 for non-degree graduate students. Approximately 38% of graduate students received a loan, 20% received a scholarship, and 4% received a grant. Workstudy awards are not disbursed because graduate students may receive hourly student employment wages rather than workstudy awards.

Common Forms of Graduate Aid

The most common form of aid to graduate students is the Federal Direct Unsubsidized Loan, which makes up 73% of all financial aid disbursed to graduate students. The next largest disbursement is the Federal Grad PLUS Loan (8%) followed by institutional need-based aid (7%) and institutional merit-based aid (5%).

Type of Aid	Graduate	Non-Degree Graduate	Total	Aid as % of Total Aid
Enrolled students	1682	336	2018	
Enrolled and receiving aid	877	41	918	
Federal Direct Unsub. Loan	\$10,934,517	\$551,099	\$11,485,616	73%
Federal Grad PLUS Loan	\$1,217,403	\$26,016	\$1,243,320	8%
Institutional Need-Based	\$1,110,070	\$1,000	\$1,111,070	7%
Institutional Merit –Based	\$740,959	\$0	\$740,959	5%
Private Scholarship	\$617,376	\$19,000	\$636,376	4%
Private Loan	\$289,033	\$10,000	\$299,033	2%
State Colorado Graduate Grant	\$226,785	\$0	\$226,785	1%
Other Federal Amounts	\$1,016	\$5,500	\$6,516	0%

Aid by College

The pie charts (below) show the distribution of students and disbursed aid among the graduate programs, abbreviated as follows: School of Public Affairs (PAFF), Helen and Arthur E. Johnson Beth-El College of Nursing & Health Sciences (NURS), College of Engineering & Applied Sciences (ENGR), College of Education (EDUC), College of Letters, Arts, and Sciences (CLAS), College of Business (BUSN), Gainful Employment Certificate Students (CERT), and Non-Degree and Concurrent Students (OTHR).

EDUC (Education) students are the largest proportion of graduate students (21%) and receive about 30% of disbursed aid, mostly in the form of loans. The distribution of aid to Engineering students is disproportionately low because there are many aid-ineligible international students in Engineering. Aid distributed to CLAS and NURS students is greater than their proportion of the graduate students because CLAS and NURS students are the primary beneficiaries of the STEM-based Colorado Graduate Grant. *Therefore, interpret the distributions with caution as pie charts do not provide the context needed to understand the proportions depicted.*

The bar chart (below) illustrates the average award by type among recipients in each academic program.

Summary Table of Disbursed Aid

*Count of less than 10 students in a category is suppressed. Contact IR for help understanding the codes.
