

## MATH EXCEL CENTER

### PEER TUTOR JOB DESCRIPTION

---

Tutor students in mathematics courses Math 090 through Math 3400 on a drop-in basis in the Mathematics Center. Attend and participate in biweekly training sessions. Additional duties may include leading workshops or problem sessions, small group or one-on-one tutoring, contacting students for retention purposes, creating resources for student use, and maintaining the appearance of the Center.

If tutors are qualified to do so, they will also be asked to tutor students in 1000-level physics courses, statistics, Matlab, or engineering.

#### Peer Tutor Qualifications

- Have taken and passed Calculus III with a B or better, and maintains a GPA of 3.0 or better in all mathematics courses taken.
- Good interpersonal and communication skills.
- A desire to help others be successful.

This is a great job for anyone interested in teaching as a future career!
