11/30/2015

Attending:
Jose, Jackie, Chris, Dave, Cindy, Christin, Kirk, Craig, Jeanne, Matt, Lenya, Scott, Ida, Kelsey

Please note the room has changed to EPC 107 which is outside of the Help Desk.

Agenda Items:
1.   Web Services New Software Siteimprove and the features it has for Accessibility

2.   Web Content Quality Process

3.   AT Lab Move to the Multi Media Lab
     We will be adding training in the new lab

     We had to pull back Read and Write Gold
     List of software for all labs - Ida and Leyna needs to come up

     E-Text books - how does the faculty work with this
     Searching Book Share

     For faculty to receive money for online courses they must meet a certain level of accessibility
     For faculty to receive cert from FRC they must make sure the accessibly

4.   Closed Captioning

     Still waiting to hear from Boulder
     YouTube will auto caption
     Descriptive video
     Washington.edu/video
     ->Washington.edu/accessibility
     Whoever creates the video must captioning it

     California does it with automatic sync technology
     Caption sync is the technology
     System wide access

     Caption sync is a $1.50 a minute

     FRC is using movie captioning

     How much is this currently costing the University?
     Ida is running the numbers for DS

     Also having copy right issues

     Trying to stay current is difficult

The content is also a problem because the faculty only knows about the content

We need a professional version of Jaws for $350

A revision to title 2 will be out in January
Title 3 for public will be out in 2018

Needing a policy in place

5. Contract Accessibility Review Board

6. Accessibility Training for Faculty

   How can we expose faculty to accessibility?

   Accessible teaching

   FCQ question

   ->Talk to Terry about what we want to message before the end of the semester

   Onboarding process

   ->How do we provide the tools?

   Use the Boulder's standards for our messaging

   Faculty need access to Camtasia or something like it
   AST Auto Sync Technology

   Boulder has a caption service in IT

   Boulder's Accessibility initiative has a great first paragraph

7. Messaging to Faculty About Accessibility and Document Creation

8. Open Topics

   Outcomes for Meeting:
   Closed Captioning guidelines for video
   Contract Accessibility Review Board defined or process
   Messaging to faculty on accessibility and document creation
