5/1/2015

Action Items:

Add accessibility statement to the web

Make skip navigation visible

Wave tool bar

Scott do a demo for web

Agenda:
1. Jeanne Durr's Handout from her conference

    Review CU Boulder's Department of Justice Letter top issues:
a. Google products (Google docs, drive, etc.)

    We are using Office 365 how does that affect us

    We need to look into email

    OWA may be a problem

    We may need to accept using other ways to for communication if OWA does not

    VPAT - look at

    OCR

    Alt media books not available in a timely manner

        Faculty not giving books to the Book Store in time

        This has been a problem for a long time

        We need to provide the books within in ten days

        Teach Act is proposing a ruling to have publishers place their content in ALT formats
b. Digital signage needs touch screen or audio or Braille AND captions

    Need to include this in our RFP

We need a plan in place otherwise we will be in trouble

VPAT for RFP

508 Sec has the specs

Copiers and Printers

a. Inaccessible portal

Boulder's information:

Colorado.edu/accessibility

Get the VPAT and publish
a. My**Labs   (Pearson publisher products such as MyMathLab, MyPsychLab, etc.)

Can this be a system wide contract?

No VPAT for mylabs - does not meet section 508
a. ALEKS (math learning software)

We do not use here, we use MY**Labs
a. Homework posted on the LMS not in an accessible format.

It is not just ALT tags it is alt text

It is up to the faculty

We need to identify the issues, build a plan and propose a budget

We have a Bb accessibility statement on the website

The platform is accessible but the content is the problem

This is only on request

www.colorado.edu/accessibility

Needing to show faculty what this means giving them DEMO

Building a SkillSoft for this

Maybe building a closed Caption Jaws demo

What is Lynda.com site wide license?

Having Lynda teach a class

Having a three day professional development day, maybe over the Christmas break

ADA training stipend

3. Review where UCCS is at currently:
a. Web

Force alt tags

Using WebAIM

Place on hold for purchaing a product

CU may purchase a product

Web Accessibility will be a major focus for moving to Drupal

Sending three people to Drupal Con

Training for web contributors for ADA

a. Portal

a. Online Learning

Hiring students that use Jaws to navigate the online learning environment

4. Discussion on Closed Captioning

On hold for Kelsey

Going forward we want to have all video closed captioned

Public facing content not academic

Purchasing with a company and charging the department to CC

5. How do we want to move forward

Putting things in writing and placing a time frame around it

Biggest things missing

Training

Book Lists

FRC training for ADA - getting educated Accessibility has been incorporated into online learning training for Quality Matter reviews

Innovations with Technology that Dave runs, adding an accessibility section.

Having a monitory training on ADA for online and buildings

Where does the teeth come from

Bookstore is not providing books in time. Beth-El is having problems with books for the summer

a. Scott and Kirk will report findings to the ADA Task Force

Scott is on the teaching with technology committee

CaptionSync
