

ITIX Meeting
Wednesday, October 21, 2015
Start Time: 10:30 a.m.

Attendance:

Xiang Tan – Engineering and Applied Sciences
Francisco Torres-Reyes - Engineering and
Applied Sciences
Dan Lemack– College of Business
Cindy Brown – College of Education

Tabatha Farney - Library
Matt Getze - School of Public Affairs
Greg Williams – Information Technology
Kirk Moore – Information Technology
Sarah Mensch – Information Technology

Agenda:

- Web Content Quality Plan
 - Accreditation in November of 2016
 - Every 6 months a report will go out stating that you (owner of a site) will need to update your website.
 - Every webpage that is published, not just a website
 - Every webpage in Ingeniux all others on different servers will need to be self-accounted for.
- Siteimprove - New Web Service Software
 - Crawler checking for accessibility issues, broken link and misspellings
 - Site owners will be getting reports of errors on their sites
 - Drupal has a lot of features that Siteimprove already has.
- IT Accessibility
 - Sub-Committee of ADA Task Force Plans
 - Closed captioning
 - Document is being created by Leyna Bencomo, Jackie Crouch and Kelsey Hunt
 - Anything that is being put out (basketball games, commencement, faculty videos etc) has to be closed captioned.
 - Message will be sent to all faculty of what they need to do to get the material accessible.
 - Department Needs?
 - SPA – there is a lack of interest and faculty can be “traditional” in the means of experience and change is hard.
 - Engineering – hard to obtain central control.
- Campus Internet Backup Link
 - Getting confirmation from FRGP that the new campus backup link is live.
 - If confirmation is received, a cutover test will be done tonight, December 2, 2015.
 - CDOT will be cutting our primary line within the next two weeks. Test will be done to ensure there are no issues.
- Data Center Generator

- Plans are moving forward for the Data Center Generator, which will be installed next to the Engineering generator
- Will be complete by end of break
- New Data Center Network
 - Currently purchasing new infrastructure.
 - Beginning of refresh from seven years.
 - Assist in building servers faster
 - Long term, services will be shared between campuses. This will allow CU as a whole to never go down.
 - Currently looking at backup solution for all campus computers, for all files and software.
 - OneDrive and Campus drives are not being used.
 - Retention policy will be created
- A/V upgrade in Columbine 317
 - Day after semester ends, COH 317 will be taken off line.
 - Will be a full screening room with 7.1 surround sound, upgraded projector and digital pathways.
- A/V Infrastructure upgrades in Columbine 3rd floor
 - Upgrades will be completed by end of Summer 2016.
 - All floors of COH are being looked at, however, it will be done one floor at a time.
- Lan School Software for Computer Labs
 - Currently being installed in the new Math lab
 - Control software so that the instructor can take over individual computers.
 - IT is considering adding it into all smart classrooms
 - COB is currently running it in both of their labs
 - No management issues
 - Good reviews
- Read and Write Gold Software for Computer Labs
 - Investigating pricing options to place this in labs
 - This software is interactive.
 - Reads and provides explanations/definitions
- Windows 10 for Campus and Computer Labs
 - 10 has a lot of security enhancements and functionalities that 8 does not
 - Faculty, staff and labs will all be upgraded
 - Office 2016 would also be installed at the same time
 - This is currently available for download for anyone
 - Fall 2016 rollout was agreed upon by all parties and testing may begin

Homework for the meeting:

November - Disaster Recovery IT Needs for Department

Timeline of when things will get back online

If IT owns the asset, they get backed

Depends on the disaster, WHEN it goes down and who is available

December - IT Wish-list (Hardware, Software and Support)

COB

Apple devices/products and management

SPA

Videoconferencing technology

Uccs.webex.com
