- Nick- A year will give us enough time to see how the cards work for pre collegiate students
- Will know within the next couple of weeks if students get munch money on them or not
- 205 students enrolled for sure and a handful of additional students for the summer. Will know the exact amount on May 25th

3. Orientation

Stacey- New printers were ordered but haven't been shipped out

- Picking up IDs at the end of the day was not good idea took too long and ran into orientation time
- Deliver IDs to OWLS for them to deliver to students instead

Stacey- Emails about Ent were not getting to parents so they didn't know anything about it before hand

- Didn't seem like there was any direction or help during orientation

Tim- Didn't get much attention in the afternoon at Ent, I'm sure we'll see more people in the fall. Lost some students due to technical difficulties.

- Not much information is given to parents and students in the morning about Ent, making their numbers go down

Kirk- Lets schedule meeting with Nick L and other Ent employees about Orientation

4. Scheduled Upgrades

Tungsten- Upgrades will happen May 15th, 16th, and 17th. Monday, Tuesday, and Wednesday after semester ends

- First day everything will be down, second day most operational stuff will be there, third day photo id will be up

Pauline- Will transactions process on the 16th?

- Yes, they will process at the end of the day on the 16th.
- One issue is if you're offline and trying to pay with credit card transaction won't work. Need to find other method of payment

5. Tungsten- FTPS was sent over to Ent for them to start using, they would rather use SFTP just waiting for them to get back about testing it
