

EXTENSION CORD SAFETY

HOW TO USE AN EXTENSION CORD

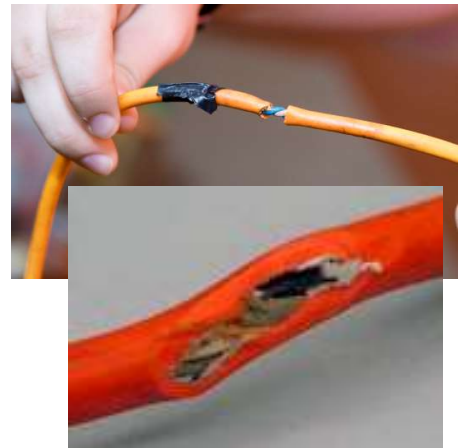

- Always unplug by pulling on the plug, not on the cord
- Never use an extension cord for permanent use
- Ensure cords always have 3 prongs and haven't been modified.

- Do not run extension cords across walkways.
 - If you must, make sure they are taped down or protected.

Inspect cords prior to each use to check condition

- Look for fraying, cuts, dents, tape, knots, etc.
- Do not use if it was been modified, extended, taped, or otherwise defaced.

- Keep extension cords out of water
