

The Global Intercultural Research Center (GLINT) Presents

The Concept of Human Security in Global Intercultural Research

Stephen Recca, School of Public Affairs

The integration of human security into global education, research, and outreach strengthens our individual and collective ability to visualize, create, and sustain our well-being through planning, preparation, prevention, response, and recovery from *any* threat, hazard, or disaster.

This presentation will focus on *people* as the foundational element—holistically, in terms of cause, effect, and as change-agents—to become our own solution-enablers.
